Hmmm, I did not have (or did not find) a more current version than the one Don sent last week. I don't have a CZARA email w/ an attached file from you since then:

I agree it is not easy to get through. It has been a long and laborious process with NOAA program staff and attorneys, multiple R10 staff and management and attorneys, and HQ staff and OGC. I have edited it twice but at some point had to say it was good enough.

I hope you reviewed last night's version - it is somewhat better than the draft I sent last week. But either way we'll get your edits in.

Decision doc is very dense. If there was time, I'd edit/ask it be edited significantly. But I assume there's already buy in on this draft from NOAA's program folks and region. So if lawyers OK, let's proceed.

We need to keep these moving. They are with WPS now and OGC AA is being briefed tomorrow. I was planning to send to Benita FYI (and in case she wants to review) tomorrow but let me know if I should hold off until friday so you can review (assume you haven't had time yet).

Good luck with appt tomorrow!
